

”Doing more personal care
without assistance”

ROPOX TOILET LIFTER

GET ON AND OFF THE TOILET MORE EASILY AND SAFELY

Most people would like to take care of their personal hygiene without assistance from others. The toilet lifter is one of the aids that can enable you to become more self-sufficient in getting on and off the toilet because it makes it easier and more effortless to sit down and stand up.

The toilet lifter lowers and lifts the user to the best sitting or standing position, and it is straightforward to set to the optimum height for both user and helper.

The round edges are gentle to the skin, and you do not get scratches, and the cleaning-friendly design makes the toilet lifter easy to keep clean ensuring a high level of hygiene.
