

”Group tables for the moments we share”

ROPOX VISION GROUP TABLE

STYLISH TABLES WITH ALL THE TECHNICAL FEATURES YOU NEED

The Vision Group tables are highly suitable for meetings, dining, teaching or any other activity where many people are sitting together. They are elegant and simple in design and still, they cater for the needs of all people, regardless of their degree of mobility.

Adjustable in height and with plenty of legroom, wheelchair users are certain to get easy and close access to the table. Also, the arm supports can be used as an aid for obtaining a balanced sitting position and is also an extra forearm support.

If you need seating for more people than the standard Vision Group tables can accommodate, the tables can also be used in extension of one another.
